FINANCIAL CRASH.

William T. Coleman & Co. Make an Assignment.

Liabilities of \$2,000,000 and Assets Worth Over \$4,000,000.

San Francisco and Eastern Banks the Principal Creditors.

he Managing Partner Says the Assignment Is Only Made to Save the Firm's Property from Sacrifice-Mr. Coleman's Hopeful View of the Case.

By Telegraph to The Times.
SAN FRANCISCO, May 7.—[By the Associated Press.] The wholesale commission house of William T. Coleman & Co. made an assignment today to L. L. Baker and Louis Sloss for the benefit of creditors. Frank S. Johnson, managing partner of the firm, submitted a statement to the effect that the firm was unable to realize upon its assets immediately, and in view of pressing engagements in New York, where the call upon them for money was urgent, they had decided to make an assignment, in order to prevent a dissipation of their property.

Johnson places the assets of the firm at
\$4,000,000 to \$4,500,000, and the liabilities
at \$2,000,000. The indebtedness in California, with the exception of a number of small amounts, is confined to four banks and two individuals. Johnson further states that among the most valuable assets of the firm is a borax property, which is valued at \$2,000,000, and that negotiations for the sale of it were in a fair way to be consummated when the announcement of the Tariff Bill, placing borax on the free list, tended to defeat efforts in that direction. The firm feels confident that its resources are more than sufficient to meet all

engagements. THE CREDITORS. The banks mentioned as creditors are the Bank of California, Bank of British Columbia, Nevada Bank and Bank of British

Bank of California, Bank of British Columbia, Nevada Bank and Bank of British North America. The firm is indebted to the Bank of California to the amount of \$199,000, of which \$130,000 is secured. It is estimated that the firm owes the Bank of British Columbia \$100,000, the Nevada Bank \$220,000 and the Bank of British North America \$100,000. It is stated that of the whole amount of Coleman & Co.'s indebtedness one-half is in the State and the other half in the East, the greater part of the latter being held by New England banks. The firm has been extending its business lately, and has acquired a great amount of real estate in the counties adjoining this city.

The assignments today were made both by the firm and by William T. Coleman. It is reported that the Nevada Bank called in its loans sometime ago, and the failure to respond in full has probably been the cause of the collapse. The formation of the firm of William T. Coleman & Co. dates back to 1849, when Mr. Coleman & Co. dates back to 1849, when Mr. Coleman a foremost place in the business interests of the coast. The present members of the firm a Fank S. Johnson, Carlton C. Coleman, Frank S. Johnson, Carlton C. Coleman and Richard Delafield. The house has agencies in Astoria, Or., New York, Chicago and London. It also acts as agents for a large number of manufacturing and producing establishments, and for the principal salmon canneries on the Columbia, Fraser, Sacramento, Skeena and Umpqua Elipsers to and from Australia, China and South America. The business of the firm is said to amount to \$14,000,000 per year.

WHAT MR. COLEMAN SAYS. SAN RAFAEL, May 7.—In an interview with William T. Coleman tonight he said: with William T. Coleman tonight he said:

THE BALL FIELD.

Indianapolis Picking Up — Boston Losing—Yesterday's Scores, INDIANAPOLIS, May 7.— By the Associated Press, 1 Today's ball game was played in misty, cold weather and on sloppy grounds, and the attendance was light. Although there was some good fielding, and, on the part of the home club, hard-hitting, the spectators did not take great interest in the game. Score: Indianapolis 5; New

Pittsburgh, May 7.—Philadelphia's vic-tory on Saturday on account of the techni-cality about Gardner's signing with the club counts for nothing, and the game was club counts for nothing, and the game was thrown out. To-day's game was hotly contested, and the home team was unable to hit Buffinton with any effect, while aside from the fourth inning the same might be said for the visitors and Galvin. The weather was disagreeable and the attendance moderate. Score: Pittsburgh, 1; Philadeiphia, 4. Detrioit, May 7.—Clarkson and Kelly played but an indifferent game today and the champions did not experience much difficulty in winning the game, which contained no features of special interest. Conway was injured by a collision with Morrill in the second inning, and Gruber pitched the game out. He did very well, holding the visitors down to a few scattering hits. The Benison struck the Eureka square amidship. The captain of the Benison says that he had stopped his ship shortly before the collision, to take soundings. The fog lifting, he started at a very slow speed, and his ship was swinging around, when the Eureka came down upon him at full speed, the fog in the meanwhile having grown dense again. The hole in the Benison's bow is ugly, and when the collision occurred the rush of water carried away everything in the forecastle. There are 19 inches of water in the Benison's second compartment, and she is now lying in a sinking condition. The Eureka is a freight boat, and carries

Decisions Affecting Saloons.

British Grain Trade. London, May 7.—The Mark Lane Ex-press says: Native wheat sales are firm. There is a fractional advance in the Provincial markets. Rates for country flour are maintained. Barley, oats, beans and are maintained. Barley, oats, beans and peas are scarce, and prices favor sellers. Prices of toreign wheat in London are against sellers. Russian wheat declined 6d. White wheats are firmer. Corn is in demand and %d. per cental higher. Linseed on the spot declined 1s. At today's market wheat was inactive; flour was steady; no corn was offered on the spot; mixed American to arrive was quoted at 25s 9d.

A Big 'Difference in Time. BALTIMORE, May 7.-A singular meeting took place Saturday at one of the wharves here. The steamer Minnesota delivered on the water side a large shipment of straw matting that left Hong Kong February 5th, by steamer for London, where it was trans-shipped to Baltimore. She was met by a train of cars from Vancouver that dis-charged at the same time the same kind of carge that had left China March 25th. This makes a difference of 48 days in favor of the transcontinental route.

Gen. Beem's Death.
CHICAGO, May 7.—The Union Veteran
Club, at a private conference tonight, appointed a committee of four to solve the
mystery surrounding the death of Martin Beem, who was reported to have committed suicide in his wife's presence at her father's Nebraska ranch. Instructions were given the committee to spare neither cost nor effort. The club will cooperate with the Grand Army Post at Alton, which is also taking an active interest in the matter.

Streets, reported that the City Attorney had advised him that he would be liable to a civil suit and a criminal prosecution were he to tear up the track of the Temple-street dummy road, and he must therefore decline, very reluctantly, to carry out the instructions of the Council.

Capt. Barrett thought the best way out of the quandary was to instruct the City Attorney to enter a suit of ejectment. Gen. Baidwin's bondsmen did not want him to take any such risk as he would be exposed to in tearing up this track, and he thought it would be well to proceed cautiously.

On motion of Mr. Hanley, the City Attorney was instructed to take the necessary steps to have the track removed.

Mr. Sablehi appeared before the Council to ask that the zanja which has hitherto

Mr. Collins said that the committee had tried to get the water from the Zanja Madre, but had found that to do this they would have to force the water up hill. It could be managed by piping the old zanja, which would cost about \$300.

Dr. Sinsabaugh said there were 50 pages.

managed by piping the old zanja, which would cost about \$300.

Dr. Sinsabaugh said there were 50 acres in the Fifth Ward of fine orange lands to which water could not be conveyed unless it could be piped, and if steps were taken to give the Orphans' Home water, these other people should also be supplied.

Mr. Collins said that the Fitth-ward people would be supplied inside of six months by means of a pipe-line now being constructed. The Orphans' Home should be supplied, as it was supported by charity alone and could not afford to pay the amount necessary to lay a line for their own use.

amount necessary to lay a line for their own use.

Mr. Sabichi thought that in the case of the Orphans' Home the relief might legally be demanded, especially as the Sisters who had charge of the waifs were saving money for the city by keeping these children from growing up as burdens on the community.

Mr. Cohn said the Council had nothing to do with charity, and while it may be possible that the Sisters had a right to the water, the question of charity could cut no figure in the case.

referred back to the Zanja Committee with full power to act. Capt. Barrett said this had been done two weeks ago, and yet, as far as the people out on Figueroa and Washington streets were concerned, no steps had been taken. He wanted to see the instructions of the Countil carried out when they were given.
The motion was carried.

STREET SWEEPERS.

The specifications for the sweeping and

cleaning of the streets of the city were read and followed by discussion on the provi sions. Paved streets were to be swept and cleaned twice or three times a week, and curbed and graveled streets but once a

curbed and graveled streets but once a week.

Mr. Cohn moved that the specifications be adopted as read, and that bids be advertised for one month. It it should be found that some of the streets needed sweeping at closer intervals it could be so changed at any time. Also, that the City Surveyor be instructed to measure all the paved streets, so as to know just how much there of this work would be. The motion was carried. Several notices of intention to grade were read and adopted, among others First street from Fort to Hill streets.

FIFTH WARD ENGINE. Captain Barrett said the members from the Fifth Ward to whom the matter of the new engine-house had been referred had new. engine-house had been reterred had received propositions from several parties, but would not recommend any but the one from Hr. Waldron, who offered to sell as many feet of property on Washington street, near Hill, as the city may need for the purpose, at \$100 per foot. This property had cost Mr. Waldron \$200 per foot, but as he wanted the engine-house he was willing to sell at the figures mentioned to get it built on his property.

Mr. Humphries thought a location a little northwest of the proposed site would be most acceptable, as the city was rapidly building out near Pico street and in that

building out near Pico street and in that direction.

Dr. Sinsabaugh said the committee could not agree on the location, but concluded to present the matter to the Council and let them settle it. He thought that there was a better proposition than that of the Waldron property, which could be purchased for about half the money.

Mr. Cohn moved that the City Attorney be instructed todraw up an ordinance instructing the Fire Commissioners to purchase the Waldron property at \$100 per front foot, as mentioned by Capt. Barrett.

Mr. Hiller said that the other proposition—the one on York street—was the cheaper, and he would amend by moving that this proposition be accepted.

The matter going to the yote, Mr. Hiller's amendment was carried.

The matter going to the vote, Mr. Hiller's amendment was carried.

Capt. Barrett-moved that the motion as amended be laid on the table, which was arried, and the President was about to put the motion as originally made by Mr. Cohn, to purchase the Waldron property, when Capt. Barrett showed that the whole matter had been laid on the table. A tangle seemed likely to ensue, and for a moment there was a cross-fire of questions and a talk of sharp practice in parliamentary rules. Mr. Teed came to the rescue, and by his motion, the whole matter was deferred till next week.

Mr. Hanley moved that Hoff street be graded, graveled and curbed. Carried, and the City Attorney instructed to draw a no-

Afternoon Session The Council met at 2 o'clock, with Presi

dent Humphreys in the chair. Capt, Barrett moved that the Street Super intendent be instructed to compel the water

and street railway companies to leave the streets in the same condition in which they found them, after tearing them up, and where this is not done, that they be ar

rested.

Mr. Cohn called attention to the bad condition of the bed under the concrete work, and said that they had been greatly deceived in the work.

Capt. Barrett said that this work had not been paid for, and that the part for which the city is to pay would be found in much better condition.

M.i. Lambie, the City Surveyor, explained the trouble, when Mr. Cohn put his suggestion in the form of a motion, and it was adopted.

adopted.

The Mayor called attention to the lack of sprinkling hydrants on Grand avenue and other streets, and, on motion of Mr. Teed, the matter was referred to the Board of Health, with power to act.

Capt. Barrett suggested that when the work was done the sprinkling and the fire hydrants be separated, its when they were together it always left the fire hydrants in bad fix.

Assistant City Attorney Dunn stated that the matter of the shirt factory building having been brought to the attention of the

City Attorney, those gentlemen had been stopped in their work. He said that they had been given permission by the Fire Commissioners, and had expended their money in good faith, and he thought they should be allowed to go on with their work. The building in question is at the junction of North Main and Alameda streets.

Quite a discussion ensued, during which it was suggested that, as there was no other legal way of giving the desired permission, the fire limits be changed. This was found to be impracticable, and, after a statement from the representative of the shirt factory, the Coupeil was about to instruct the City Attorney not to proceed against the enterprise, when a representative of the insurance men asked permission to protest against corrugated iron, as he said that it made an unsafe risk.

Mr. Teed said that it was none of the insurance men's business. They could insure or not as they pleased.

Mr. Sinsabaugh moved that the factory people be allowed to proceed and finish their building.

Mr. Hiller then moved that the City At-

people be allowed to proceed their building.

Mr. Hiller then moved that the City At-Mr. Hiller then moved that the City Attorney be instructed not to proceed against the factory, when Capt. Barrett said that while he was not opposed to the motion, he did not want this action of the Council to go on record. Dr. Sinsabaugh said he hoped they would do nothing that they were ashamed of, when the President said that if there was no objection, it would be considered as the sense of the Council that they be allowed to proceed, which disposed of the matter.

Capt. Barrett said that there had been some trouble about the notices of intention for paying streets, as they did not comply with the law, which might lead to complications, and he therefore moved that the Clerk be instructed to draw up new notices in compliance with the law. Carried.

FORT-STREET SEWER. Mr. Book called up the matter of the Fort-street sewer. He said the people on that street had told him that they expected to have that street paved at once, and wanted the sewer first put in. With this object in view, he offered a resolution that a committee of three, in connection with the City Attorney, be appointed to see what could be done in the way of placing sewer bonds, or taking some other action to relieve the pecuniary difficulties in the way.

Capt. Barrett said he considered action of this kind premature at this time. They had no sewer bonds at the present time, and the first thing to be done was to get them.

Mr. Cohn said if the people on Fort street were in earnest, and they would pay an assessment of \$1 per front foot, the sewer would be put in.

Dr. Sinsabaugh seconded Mr. Book's motion, when Mr. Barrett moved to amend by street had told him that they expected to

Mr. Lovell said he did not see the propriety of Mr. Book's motion, and said that the sewer could be put in at \$1.60 per foot. He suggested that the Clerk of the Council correspond with eastern capitalists and see what could be done in placing the bonds.

After further remarks by Messrs. Barrett and Book, in which the legal aspects of the proposition were further discussed, Mr. Lovell said that he thought the way to proceed was to publish a notice of intention

The ordinance allowing 20-feet sidewalks on Castelar street, between Temple street and Bellevue avenue, was read, and, on motion, it passed—13 yeas, 1 nay.

The ordinance regulating the width of the sidewalks on Ninth street, allowing the hotel people to have two feet additional in front of their property, came up, and Mr. Conn entered a vigorous protest against what he-called special legislation. Capt. Barrett explained the matter, in which he was assisted by Mr. Lovell, and the ordinance was put to a vote, resulting in its adoption—12 yeas, 1 nay.

Capt. Barrett moved to reconsider the action taken at a previous meeting refusing to accept streets of less than 60 feet.

Dr. Sinsabaugh said he thought it was an ordinance of long standing. He then seconded the motion of Capt. Barrett. Dr. Sinsabaugh called attention to the battered condition of Clerk Teed, and moved that he be allowed a vacation until the first of June to recuperate, and that his chief deputy, John R. Clark, be empowered to act for him. The motion was unanimously adopted.

GEN. MANSFIELD'S ADDRESS. On motion, Gen. Mansfield addressed the council on benaif of the property-owners on Beaudry street, stating that the change of the grade from the flat to a sliding grade had caused a conflict between the property-owners and the contractor as to the payment for the same. They thought it would be an injustice to compel them to pay for the change of grade, and he suggested that the City Engineer be instructed to make a reëxamination of the street, and see what the difference in the così of the two grades would be, if there was any.

Mr. Lovell moved that the Engineer take the necessary steps in the matter.

Mr. Barrett said that the matter had been virtually settled, as it had been brought before the Board of Public Works for some time. Mr. Dunnigan, he said, was perfectly willing to do what was right, but that the property-owners had refused to make any concessions, and that the fault lay with the property-owners themselves.

Mr. Teed moved that Mr. Dunnigan be instructed to proceed under his original contract, which was seconded by Mr. Lovell.

Gen. Mansfield said that this action would work a great hardship and injure the lots, and that, rather than have this they on Beaudry street, stating that the change

Gen. Mansfield said that this action would work a great hardship and injure the lots, and that, rather than have this, they would do the work themselves. They considered that the price was exorbitant, in the first place, and could have been done for much less. He would prefer to have the matter laid over for a week rather than this action should be taken.

After turther remarks by Mr. Barrett, Gen. Mansfield, and other members, Mr. Teed withdrew his motion, and the matter was referred to the Board of Public Works for one week.

Teed withdrew his motion, and the matter was referred to the Board of Public Works for one week.

The matter was considered virtually settled, when another discussion arose as to the right of the Council to instruct the City Engineer to make any estimates for the work, and afr. Barrett moved that the matter be deferred tor one week, to give the people a chance to see what arrangements could be made with the contractor.

Mr. Lovell and Mr. Book were of the opinion that the Council could instruct the Engineer to do the work, if they so desired, and Mr. Barrett vigorously protested. Dr. Sinsabaugh was also of the opinion that the Council could instruct the Engineer, and the duil monotony was relieved by a little tilt between Messrs. Lovell and Barrett. The Engineer was finally instructed to make the desired estimates, and Mr. Barrett gave notice that he would move a reconsideration next Monday.

The recommendation of the Board of Public Works, that the San Gabriel Valley Rapid Transit Railway Company be given right of way over Alameda and San Pedro streets, at an elevation of 21 feet, came up, and...was accompanied by an ordinance to that effect, which, on motion of Mr. Lovell, was ordered printed and laid over for one week.

and asking that he be placed in the list.

Mr. Lovell wanted more time, when Mr. Barrett moved that a warrant be drawn for Justice King.

There being some further doubt, City Attorney Daly gave his opinion in the matter, saying that Judge Hutton had decided that Justice King was a de-facto officer, and was legally acting in this capacity. There

were other questions involved, however, which had compelled him to give the opinion which he had.

Mr. Loveli then moved that the matter be postponed for one week.

Mr. Collins moved to amend by placing Justice King on the salary list.

Mr. Loveli refused to accept the amendment, and, his motion being put to a vote, it was lost.

Dr. Sinsabaugh called attention to the proposed change of grade on First street, from Boyle avenue to the foot of the hil, and asked that action be taken at once.

The report of the Fire Commissioners was laid before the Council, and the various recommendations adopted.

It was agreed that all petitions for the erection of buildings be laid over for one week, and that the Fire Commissioners meet in the Council chamber this (Tuesday) afternoon at 2 o'clock, for the revision of the fire limits, and that all citizens and Councilmen interested be present, and lay their views before the Commissioners.

The matter of the hose contract of the Crane Bros., for furnishing White Anchor hose came up, and Mr. Barrett moved that the recommendation that the contract be awarded them be rejected, on the ground that they could not furnish new hose, and that Maj. Furrey, the agent of the company, was the only person who could furnish the hose. Mr. Teed said he objected to this thing of trying to buildoze things through, and that the whole matter grew out of the fact that Maj. Furrey was a little sore over being beat. After remarks by Messrs. Hanley, Collins, Sinsabaugh, Gibbs, Mathews and others, a letter was read from the manufacturers at Akron, O., 'saying that they would not furnish their hose to any one but Maj. Furrey. Mr. Sinsabaugh then moved that the bid of Maj. Furrey at 98 cents per foot be accepted, which passed, Mr. Teed calling attention to the fact that Furrey's bid was originally \$1.

"Capt. William Blanding, one of the superintendents of the work of establishing the National Home for Disabled Volunteer Soldiers in the southern part of the State, has returned from the site of the home. He reports that the work is well begun. The site is a plot of 300 acres on the Rancho San Vicente y Santa Monica. It is 14 miles from Los Angeles and three and a half miles from Santa Monica. It is a little north of a line drawn between the two. It is on the southeastern slope of the Cahuenga Mountains, and is near the mouths of three cañons, from which the water supply is to be drawn. Surveys for a reservoir to hold 1,200,000 gallons of water have been made. This reservoir will cover 28 acres.

"When completed, the home will accommodate 2500 men. Bids for the erection of 25 barrack-houses, each 200 feet long by 50 feet deep, will be opened on the 19th inst. By October the home will be ready for 400 men, and by the fall of 1889 the whole will be completed.

ANSCHLAG'S CASE.

The Appeal to Be Argued Before the

Supreme Court.
The I.O.O.F. are holding a meeting in San Francisco this week at which District Attorney Du Puy proposes to be present. From thence he will not proceed to Sacrarom thence he will not proceed to Sacramento to argue the Anschlag appeal before the Supreme Court, it having been stipulated by the attorneys on both sides that the case should be submitted on briefs. In Department No. 1 of the Superior Judge Chene

Court, yesterday morning, Judge Cheney continued the time for sentencing Mentzel and Weish, the two men who robbed a man named Todd of a hog valued at \$20, on San Fernando street, several months ago, and who last week were found guilty of grand larceny, until Thursday next at 10 o'clock. Ex-Detective Brady.

In the article published yesterday, and headed "Telephone Crotty," the name of ex-Detective M. W. Brady was used, and the statement made that he was formerly the statement made that he was formerly in the employ of the defunct "Telephone" newspaper as "a general utility mah," in which capacity, it was reported, he had devoted his time to procuring items of a doubtful character, and from doubtful quarters, for the use of that sheet. This information, which was given to a reporter of this paper, is denied by Mr. Brady in toto, and is not substantiated. He should, therefore, be relieved of the charge and the odium thereto attached.

THOUSANDS OF PEOPLE AND THOUSANDS OF DOLLARS.

Angeles Will Be a Regular omer This Fall-Judge Brunson Gives Facts and Figures-People Preparing for the Fall Boom

Better times are ahead for Los Angeles and they are not far off. Yesterday Judge Brunson, chief counsel for the great Santa Fé Railroad system, said:

"For every 50,000 people who were be for Southern California at this time last year, there are 150,000 booked now. Not only that, but for every dollar spent last year, three dollars will be spent this fall. Money was a little tight two menths ago, but business is much better now, and there is plenty of money in bank. I am confident that we will have better times this fall and winter than ever before.'

Judge Brunson is in a position to know

Judge Brunson is in a position to know about the people who are coming to this State during the fall months, for he is the attorney for the railroad company that has done more to settle up Southern California than any other single influence. "But what does Judge Brunson mean by saying that the people are booked for Southern California? How does he know how many are coming here this fall?" will be asked by a great many people. The excursion system was originated only a few years ago, but it has grown to such magnitude that a number of agents are at work in the Easstern States all the time. They go from one place to another and engage berths to people

SEVERAL MONTHS AHEAD of the time fixed for an excursion train to start for California. In this way the railstart for California. In this way the railroad people can tell just how many people are coming to the coast, and when a railroad man says that so many people are booked for California he knows just what he is talking about. Readers of The Times will remember that at this time last year these were only about 50,000 people booked for Southern California. Indications also go to show that the level-headed residents of Los Angeles are preparing to receive them. Buildings are going up on alisides. It is almost impossible to walk a block in any portion of the city without running against a new house, or workmen who are adding to or enlarging some old one. Everybody, except the 1-told-you-so wiseacres, is looking forward to better times this fall than were ever before known in the City of Angels.

The Courts Jam Full of Divorce
Cases Yesterday.
In the courts yesterday many divorce
suits came up for hearing, almost to the exclusion of other cases. In that of Mary E. Cushman vs. I. C. Cushman, tor a divorce on the ground of cruelty and drunkennes on the ground of crueity and drunkenness on the part of the respondent; of Nellie E. Sutter vs. J. Sutter, for failure to provide, and of T. J. Spencer vs. Mattle R. Spencer, on the charge of adultery shortly after mar-riage in October, 1887, none of the litigants put in an appearance when the cases were called, and consequently they went over. In Imelli vs. Imelli, the wife prayed for a

In Harbridge vs. Harbridge, the wife was granted a divorce from the husband on the good-loof his cruelty and habitual drunkenness. Her husband had threatened her life every time he was intoxicated, which, on an average, was six times a week. The defendant did not appear, but the bonds were severed that bound the unhappy couple together.

severed that bound the unhappy couple together.

A divorce was granted to W. E. Symons on the ground of the desertion of his wife. While living in Wisconsin in 1855 she left her husband, since which time he has permanently settled in California.

George Quinn was granted a divorce from Mary J. Quinn, his wife, on the ground of adultery. Mr. Quinn found a letter in Mrs. Quinn's trunk which she had written while living in Alameda to a man named Meyers, a butcher, in Arizona. Mr. Quinn knew the full extent of his wife's duplicity, of which he had had intimations from officious friends. A witness proved that Mrs. Quinn used to frequent houses of assignation. She did not make answer to the complaint of her husband in the suit for divorce.

The Games Running While the Com-missioners Sleep.

There is no improvement in the gambling

situation. The games are still running, and no effort is being made to close them up. The Police Commissioners Insist that they have not receded from their position, and that the resolutions passed by the board were in good faith, and meant just what they said. A Times reporter was yesterday detailed to see the Chief of Police, and find out what he knew about the matter, as he was instructed by the board to detail as many officers for the work as, in his judgment, he saw fit, and to close the houses and keep them closed. It is known as a fact that the men were detailed, Officers Bowler and Boland being the ones selected for the work. These officers have repeatedly declared that they could pull any game whenever it was wanted, and for several nights it is believed that they did keep them shut. These very efficient officers (when they want to be) have not been so enthusiastic for a day or two past as they were when they first started out on their mission, and are very reticent as to what they are doing or intend to do, another circumstance which has caused no little comment in certain quarters. Chief Cuddy was seen last night at the police station, and asked about the situation. The Chief said he was very busy, but that the matter would be attended to as soon as possible. He said a game might open for a few hours a night, but that they would be closed as soon as they were discovered. They would not be permitted to run to any great extent, as the officers would shut them up as soon as they could be reached. He had a number of men at work looking after a gang that were causing a good deal of trouble in certain portions of the city, but that they would be put on as soon as they could not be done in a day, and that if given time he would straighten the whole thing out." detailed to see the Chief of Police, and find

The Libel Cases Taken Out of the Justice Court Again.

The last batch of complaints sworn to by
Horace Bell, Esq., against G. Wiley Wells, Esq., were set for hearing in Justice Taney's court yesterday. Before the hour arrived, however, for the examination to take place, a writ of prohibition taken out by defendant's counsel, C. C. The writ will be argued in Department No. 1 of the Superior Court, and, should the writ be sustained, it will be a matter of some interest to watch the next move of the pugnacious plaintiff, who has pushed his case for all it was worth, and has declared he will have satisfaction in some shape or

wife and four children less than 9 years
old, about March 20th. He talked
much about his Government bonds, his
influential friends in San Francisco
and his wonderful cures in the practice
of medicine. Henry Hanson was engaged to fit up a drug store for the
Doctor in Mrs. Bailey's building, and
with a flourish of trumpets the store
was announced to be opened about
April 15th. A \$450 soda fountain was
ordered from St. Louis, several hundred dollars' worth of liquors were telegraphed for from San Francisco, and

diet dollars worth of liquors were telegraphed for from San Francisco, and there were numerous orders for the most costly toilet articles, perfumes, etc., to be had. Meanwhile the "Doctor" and his family waxed and grew fat on the board at Brown's Hotel.

Ten days ago the "Doctor" suddenly disappeared from Pomona. He gave out that he was going to Santa Ana and then to Los Angeles, to negotiate the sale of about \$5000 worth of his bonds. He has never returned. Two days after his disappearance several men came to Pomona from Santa Ana and South Riverside, with claims for board, clothing and liquors against "Dr." Brown, who, they claimed, played the "drug-store" trick in that locality several weeks ago, and then locality several weeks ago, and then left town. It is now found that Brown left town. It is now found that Brown was not worth a penny, and that he has lived in dozens of towns in California as he did in Pomona. His wife and children were helped out of this city by contributions from several citizens, who took pity on the helpless wife and her little children. The only actual money he spent here was \$2 that he borrowed. The Doctor owes about \$450 in Pomona. \$450 in Pomona.

PASADENA, May 7.—[Specially Reported for THE TIMES.] The local mocracy have a contract on hand, to wit, the raising of a sum of money wherewith to entertain the 1400 or 1500 delegates to the State Convention when these patriots shall assemble in Los Angeles on the 15th. Monrovia is said to have subscribed \$400 for the lauda-ble purpose of showing the delegates beauties of that ambitious burg; and Pasadena, it is supposed, will want to do something in the way of making the visitors feel at home here. The County Central Committee has ap-pointed T. F. Flynn chairman of a sub-committee to solicit funds for entertainment purposes, and tomorrow he will see what can be done in this

entertainment purposes, and tomorrow he will see what can be done in this line.

The delegates from Pasadena to Saturday's convention returned feeling centent with the outcome of their deliberations, and the project of forming a Democratic club here is being pushed right along now with more vigor than before. It is thought by some of the leaders that 200 voters could be unearthed in this prefinct, but others are not sanguine of finding more than 150. The recommendation by the convention of Senator L. J. Rose as a candidate for Congress from this district is not calculated to arouse unbounded enthusiasm among the faithful in view of that declaration in the county platform about the devotion of the Democratic party to the interests of the poor man.

Saturday night and Sunday may be relied upon to evolve something demanding the attention of the guardians of the peace, provided the conditions are at all favorable. This morning the justice found a case of fighting and two cases of drunkenness registered at the police headquarters, one of the dramatis personæ in the latter being a woman, Mary McCaughey by name. The sum of \$25 in fines was corraled from the batch.

Clark and Howard vs. McCoy was called in Justice Torry's court this morning, but by consent the case was postponed one week. The causus belli is found in the fact that Dr. McCoy, proprietor in part of the Union, has failed to turn over a fractional part of a water share said to have been duly bought by Clark and Howard, former proprietors in part of the same paper. It is probable that if the love and concord which usually prevail among newspaper men, and so greatly distinguish It is probable that if the love and concord which usually prevail among newspaper men, and so greatly distinguish them above their fellows, had existed between the parties to this action, the status of the water stock claim could have been determined without resort to law. As it is, the sightless goddess of Justice will have to be allowed to maintain her grip upon the case until it is adjudicated.

The Presbyterian Church pulpit was occupied by Rev. W. C. Van Meter of Rome, who discoursed about the trials of the Protestant colony in that City of the Seven Hills. During the day he succeeded in collecting about \$100 for the support of Protestant schools in Rome and the printing of Bibles.

The opening of the furnished and completed Presbyterian Church yesterday drew a large congregation. The great organ was heard both morning and evening, Prof. Whiteley being at his best in playing it. A quartet of singers is far short of what is required in the choir, however: A chorus of 75 or 100 would arniish music more in keeping with the volume of tone poured from the organ. At the Sabbath school nearly \$9000 was subscribed toward paying off the debt of the church. The auditorium was bedecked yesterday with a profusion of beautiful flowers in appropriate design, and the new seats, carpet, etc., were in harmony with the elegant finish of the room. There is one thing lacking that the officers of

Cooping a thousand people up in a building without a window open or openable, savors too much of the black-hole of Calcutta. That was a small apartment, to be sure, but it had an open window. A Christian congregation deserves as much consideration as the victims of the Calcutta execution. Carlo Modini, a distinguished tenor, is at the Carlton, and is charming everybody by his voice. He will sing at the reception at Mr. and Mrs. Green's tomorrow afternoon.

The committee having in charge the petitioning of the City Trustees for annexation of North Pasadena to the city has about concluded to leave off Altadena and Los Casitas, and ask that the territory south of the Painter & Ball line be taken in.

The directors of the Pasadena Lake Vineyard Land and Water Company held a regular monthly meeting this afternoon. Plans for cementing resorvoir No. — were discussed, and a resolution finally adopted instructing the executive committee to have one-half of the reservoir dammed off by an embankment across it, and cemented. This same committee was instructed to have the water-bearing lands of the company in the Arroyo Seco inclosed by a barbed wire fence to protect the property against the encroachments of picnickers and others. The tendency of the average roamer of these wilds is to vandalism, and nothing short of an insurmountable object seems adequate to keep him at bay.

A disgusting case of sodomy and indecent exposure came to light this afternoon by the arrest of a crippled tailor named L. Ketchel denies his guilt, but admits that some indecent transactions took place between him and the boy, but not at his instigation. The boy's story is that as he was looking in at a store window on Colorado street yesterday afternoon, Ketchel came along and sai

He Explains the True Inwardness of Some Things.

SAN FRANCISCO, May 4.—[Special Correspondence of THE TIMES.] If you can send to the telegraph office, at the Golden Eagle Hotel, Sacramento, you will find that my special telegram, giving proceedings of convention and summary of platform, was filed at 2:30 p.m. of last Tuesday. The convention was called to order at 3:15, but I was was called to order at 3:15, but I was not there, for I left for this city on the 3:30 p.m. train. But before I wired you, I saw the list of delegates and read the platform. I write you these details because I see that you have fallen into a mistake about the strength of the Stanford element in the convention. Of the 458 delegates, over 400 were Stanford men, and would have voted to instruct for Stanford, if Stanford's managers had incorporated it in their platform. Mind you, the platform was written by Mr. Stanford's attorney, supervised by my friend Stephen T. Gage, and at Sacramento, was read by the majority of the Committee on Resolutions before the convention was arranged by Messrs. Gage, Haymond, Swift and Estee at the Golden Eagle Hotel before the convention met. I am speaking now of what I know.

And, to sum it all up, the work of the convention was well and discretely done. The railroad machine was committed to the Republican party, and so was Mike de Young of the Chronicle—by the railway. And for all that was done, and the impolitic things which were left undone, we owe thanks to Col. Fred Crocker, Col. Creed Haymond and Col. S. T. Gage. And when we have taken into consideration that they are busy men we can understand how deeply we are indebted to them for sparing the time needed to manage our political affairs for us. And that is not all—they will do the same for the Democratic Convention—and will have their Democratic employés on that delegation. If you would know more go to the general offices of the State government, corner of Fourth and Townsend, for the branch offices at Sacramento do nothing but carry out orders. * not there, for I left for this city on the

INDIGNANT POMONA SOLDIERS

Vicksburg G. A. R. Post Claims to Have Been Frequently Insulted.

[Pomona Corr. Inter Ocean.]

Pomona (Cal.), April 14.—I inclose a series of resolutions passed by our post, and wish you to give them a place, with comment as to whether we did right. If you do not publish them please inform us whether, under the circumstances, we did the right thing. The facts are these: A great many old soldiers come here in the hope of prolonging their lives; many die; the old soldiers bury them. There are clergymen here who were chaplains in the rebel army. They are continually insulting the G.A.R. We care nothing about it except when they officiate at the burial of our comrades and insult us while in the church. Last week we buried one of our comrades. In accordance with his wishes the G.A.R. buried him. His funeral sermon was preached by a Baptist clergyman—a rank rebel. of our comrades. In accordance with his wishes the G.A.R. buried him. His funeral sermon was preached by a Baptist clergyman—a rank rebel. When through, he took a paper containing his military record, which the Post Commander had given him, and then said a few sneering words in regard to the cause in which our dead comrade had fought and in which he had contracted a disease which caused his death, and for which he was drawing \$2 a month pension. The following are the resolutions:

"WHEREAS, the members of Vicksburg Post, No. 61, G.A.R., have been grossly insulted in a number of instances by clergymen officiating at the burial services of their comrads, and

"WHEREAS, the suffering and ties that bind us to each other, and the sacredness of the cause for which we fought; when laying away all that is safted of our comrades, we do not longer deem it our duty to submit to such insults, therefore be it

"Resolved, that hereafter we will not attend the funeral of a soldier of the G.A.R. unless the officiating clergyman is loyal to the United States Government, and, laying aside all denominational prejudices, we earnestly ask the families of all comrades hereafter to see that none but loyal men officiate at the funeral services of our late com-

A Proposed Memorial to the Dead Humanitarium.

The American Humane Association The American Humane Association, an organization formed of representatives of the various humane societies in the United States, through its president, G. E. THE AMERICAN HUMANE ASSOCIATION.—To Los Angeles Humane Society:
Henry Bergh is dead; "His body is buried in peace but his name liveth for ever mone," and while we may not be able by anything that we can do to add to the lustre of his fame, yet, for the emulation of others who might thereby be led to follow after his noble way, we ought in each place where there is a society for animal protection to build a fountain where thirsty dumb creatures may drink, and place on such memorial:

The "Bible-wine" Theory.
[Prof. Atwater in Century.]

Another side issue of our temperance discussion is the so-called "Bible-wine" theory, which maintains that the wine used in Palestine in the time of Christ was not alcoholic. I have been unable to find evidence that the composition of the juice of the grape, the laws of fermentation, or the practice in the making and using of whne, were different in that country at that time from those in other countries, or in that country at other times; and believe it safe to say that the theory that Bible wine was different from other wine, that it had not the alcohol which other wines contain, is without any basis to support it, in the opinion of the student of science.

dent of science.

What Am I to Do?

The symptoms of biliousness are unhappily but too well known. They differ in different individuals to some extent. A bilious man is seldom a breakfast-eater. Too frequently, alas, he has an excellent appetite for liquids, but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order, and diarrhea or constipation may be a symptom or the two may alternate. There are often hemorrhoids, or even loss of blood. There may be giddiness, and often headache and acidity or fistulence and tenderness in the pit of the stemach. To correct all this, if not effect a cure, try Green's August Flower; it costs but a trifle, and thousands attest its efficacy.

SUMMER! SUMMER!

J. M. Hale & Co.'s, 7 & 9 N. Spring St.

We did it again. Did what? Well, we will tell you. Truth asserts itself, and when backed up with realities acts as a loadstone even upon the sceptic. Twenty-two hundred and ninety-seven people (2297), men, women, misses and children, crossed the threshold of 7 and 9 North Spring street at the instance of our first summer value sale, and we are going to repeat it again, next Wednesday, May 9th. But wait; we started to tell you what we had done, what we are doing at the present time, what we are going to do in the next few weeks. Nearly a year ago our dumbfounded plagiaristic threefold imitator thought we had lost something and that he had found it; but before he had got done with it he felt assured that it was not ours. Well, "history repeats itself." Three different times within as many weeks our illustrious assumer has copied after us, and not only copying but proclaiming ideas as original. We cite an instance: This season's delaines at 17c; 5-button embroidered back kid gloves at 65c; Garner's new style Batiste at 121c. Two days afterward in every case, our magnanimous exemplifier of original ideas showed out in strong competition, poor thing: Last year's delaines at $15\frac{1}{2}$, dear at 5c; 4-button goatskin gloves at 59c, fit for the vineyard; and, to make the copy complete, a few patterns old-fashioned designs of Batistes at 10c. We do not wish to detract from the success of man, woman or child, but we want it distinctly understood at the onset, that Hale & Co. can substantiate anything proposed; that Hale & Co. never imitate; that Hale & Co. never plagiarize; that Hale & Co. are for the people; that Hale & Co. are with the people; that high prices find no place at 7 and 9 North Spring street; that May 9th will be remembered in Los Angeles.

RHADAMES. RHADAMES. RHADAMES.

Our silk sale of several weeks ago was a success. Nobody doubts it; the prices did it; the quality of the silk did it. We are going to repeat the sale. Twenty pieces (1600 yards) all-silk Rhadames at 87½c per yard; sold everywhere at \$1.25. We quote from a fashion journal: "The satin Rhadames, justly popular for its wearing quality as well as for beautiful effect is taking the place of the older colored gros grain." We have the entire line of colors and shadesgobelin blue, gobelin gray, sapphire gray, silver gray, several shades in brown, garnet, plum, myrtle—in fact everything that can be asked for, and are going to close out the entire line at $87\frac{1}{2}$ c per yard; sold everywhere at \$1.25. These goods combine the weight of the Mervilleaux with the lustre of the Rhadzimere. Wednesday, May 9th.

IT appears that the figures first published, giving the votes received by the delegates-at-large to the Chicago Convention, were incorrect. These votes placed Mr. Gage last on the list of the four elected, whereas he came within seventeen votes of the highest. The correct figures are: Swift, 390; Gage, 373; Estee, 325; Haymond, 312. THE failure of the great commercial house of William T. Coleman & Co. will excite yet greater surprise than did that of George W. Meade & Co. Like the latter firm, Messrs. Mr. Coleman is a leading Democratic light, and there is a sort of poetic justice in the fact that an indirect cause of the failure was the contemplated placing of borax on the free list by a Democratic administration.

THE Democratic State Convention which meets here May 15th, is assured a good time. It will be in session three days. After organizing the convention the afternoon will be given to a trip to Santa Monica, and on the afternoon of the 16th the members will go to Pasadena and Monrovia. The third day will be given up to business. Dele gates from Sacramento and other rural owns will have a grand time, while sleepy old 'Frisco will have an opportunity of seeing what a live city is doing; and we hope all will cease misrepresenting Southern California.

Defeat of the Charter.

Owing to the deplorable lack of interest displayed by the citizens in a matter of the very highest importance -the framing of a new organic act for the city-the new charter was yesterday defeated by the very slender majority of 140, out of a total vote of only

The extent to which this criminal neglect of a citizen's duty was carried may be gathered from the fact that, for every man who voted yesterday, at least seven who have a right to vote stayed away from the polls. The deplorable nature of this state of things will be admitted by all good citizens It is an alarming symptom of modern American politics, which is altogether above and beyond the mere question of defeat or success of the Los Angeles charter. This wholesale abstinence of citizens from serious political work is a species of social dry-rot, which, if allowed to spread, will inevitably undermine the entire fabric upon which American society, as at present constituted, rests.

The vote cast was as follows: First Ward, total vote, 208, majority against, 90; Second Ward, 399; majority against. 15; Third Ward, 337; majority for, 79; Fourth Ward, 243; majority against. 45; Fifth Ward, 213; majority against. Total vote, 1400; majority against 140.

It is unnecessary to state that so small a vote cannot be regarded as a fair test of the opinion of the people About one-seventh of the voters gave their opinion, the remainder stayed This fluid, when brought into contact away from the polls. When it is with the air, after the explosion of a further considered that whatever active work was done was done by the enemies of the instrument, it is evidently safe to assume that, had a full vote been polled, the result would have been altogether different.

However, it is no use to discuss the past, except in so far as we may draw a lesson therefrom. The next thing to be done is at once to take steps to elect another Board of Freeholders and submit the charter once more to the people, after eliminating its most objectionable features and adding any good provisions which the recent dis cussion of the subject may have sug-Then, let every voter turn out like a man and say yes or no, and we may with safety be willing to abide by the result.

Our Railroad Development.

A letter from Los Angeles to the New York Times gives some interesting facts regarding the wonderful development of Southern railroad California.

It is shown that, during the month of January and February last, the Southern Pacific moved sixty million feet of lumber out of San Pedro Bay that the gross earnings of the Southern Pacific on its San Pedro branch -about 27 miles-for 1887 were \$1.085,000, or at the rate of a little over \$40,000 a mile, a greater rate per mile than is earned by any of the leading railroads of New England, and that the gross earnings of the Atchison, Topek Santa Fé Company for 1887, on its line from Los Angeles to Pasadena, a distance of 15 miles, is a little over \$700,000, a still higher rate per mile than that reached by the Southern Pacific.

Such figures, added to the fact that half a dozen railway companies are busily engaged in extending their brought up again before the end of present systems, or in introducing new ones, form a complete refutation of the charge that the Southern California boom is formed chiefly on speculation in real estate. Land speculation is merely an incident of our progress, not its cause.

Iowa in California California in Iowa.

The exhibition, in a timely, adequate, judicious and persistent way, of California products before the people of other States, has always proved effective in attracting attention and immigration to the Golden State. Thousands of people have been drawn hither by these exhibitions and by the descriptions of the country which have through them been laid before in-quirers. The displays of California fruits made in St. Louis and Chicago were good investments for Los Angel and the other southern counties, and might be repeated with profit.

Des Moines is suggested by an Iows man as a good place for another such exhibition, and the forthcoming annual fair of the State Agricultural atribute to an enterprise of so Society, to commence August 31st, and to continue eight days, as a suitable

occasion for the proposed California fruit show.

Mr. R. C. Webb, who has personally made this suggestion to THE TIMES, and who is himself a director of the Iowa Agricultural Society, has been spending several months in Los Angeles county, and has property interests here. He is confident the scheme would be a great one for Southern California, and believes that a carload of fresh fruit from here might easily be disposed of daily at the fair, to regale the natives and help pay the expense of the exhibit. He states that three years ago the average daily attendance at the fair was 42,000. This would be a big audience before which to exhibit our products, and the exhibition could

Measuring other people's intentions by its own degraded standard, the Trombone asserts that THE TIMES suddenly changed its views on the new charter question, and intimates that such change was made "for cause." The Trombone being continually on the look-out for a chance to sell itself, it is not surprising that it should credit others with the same base designs.

The facts are that THE TIMES never changed its expressed opinion on the new charter; because, until Sunday, we had expressed no opinion on the charter, as a whole. At the time it was first published, we condemned the section relating to the powers of the Health Officer. We did the same again on Sunday, but, after a careful study of the pros and cons, arrived at the conclusion that the good features of the instrument outweighed the bad. and so stated. If we wait for a new chater that shall be absolutely perfect, we are liable never to have a new char-

THE present lull in business will not continue; better times will come; proswill return, and Los Angeles will be herself again before the ides of November. Judge Brunson, the attorney for the Santa Fé Railroad Company, is authority for the statement that three times as many visitors as came to Southern California last season are already insured for the coming winter. The terrible blizzards which swept over New England this spring furnished a fresh illustration of the truth of the adage that "it's an ill wind that blows nobody any good.' The sufferings incident to that unusually severe weather have undoubtedly caused thousands who were wavering to make up their minds to forsake the hyperborean regions and come to the land of sunshine and flowers. may expect a bigger boom than ever next winter, and a boom of a solid character-a boom of home building and practical development of our own

A DISPATCH from Albany to a New York journal states that Republican sentiment is crystalizing into the fact that the New York delegation to Chicago will be strongly anti-Blaine and will swing sufficient weight at that gathering to prevent the nomination of Mr. Blaine, in the event of such a step being contemplated. Depew has steadily gained ground during the past few months, while Blaine has lost. It is now said to be doubtful whether he will have ten of the seventy-two New York delegates at Chicago.

AMUSEMENTS.

AT THE OPERA-HOUSE.-The "Lena Despard" of As in a Looking Glass is a woman who is simply self-indulgentlywicked; a woman who wanted meney and her creature comforts, and cares but little how it is obtained. The "Lena Despard" of Mrs. Langtry is an interesting woman, real creation of flesh and blood, con a real creation of flesh and blood, controlled by evil impulses, it is true, concerning wicked deeds, and driven by a pressing need of money, capable of appropriating everything she can get, including other women's affianced lovers, but by no means totally devoid of conscience or of heart, and finally, by the ennobling fervor of a late but single-hearted passion for her husband, lifted at once to her reward and her punishment.

and finally, by the ennobling fervor of a late but single-hearted passion for her husband, lifted at once to her reward and her punishment.

The play is a good one, containing many strong scenes, but centering altogether about the figure of the socalled adventuress, and leaving even Mr. Coghlan, as "Capt. Fastinbras" but little to do, but act the lazy devil, which he can do to perfection.

Mrs. Langtry's bovine beauty, the-long lines of her noble figure, her beautiful almond-shaped eyes, are all unchanged, but her face looks older, her expression is deeper, more mobile, more mature, and to her every act is added a strength, a power and a refinement, that while it may or may not be the result of the arduous study to which she is reported to have been devoted, shows conclusively that she is a long way on the royal road to honor, and permanently removes her from the ranks of the amatuerdom. It would be easy to single out instance after Instance of this, but it is sufficient to notice the finale scene, where, after having written the pathetic and natural letter of farewell to her husband, she takes the poison and dies in her lonely agony, without the forgiveness which she has desired. It may be doubted whether the real "Lena Despard" of the book would ever have taken such an uncomfortable thing as poison; she preferred the sleepy chloral, but as Mrs. Langtry makes the whole personality stronger, it is perhaps fitting that she should choose to die by a sterner method. Her death is but too painfully well done; the quick draining of the fatal draught, the wild revolt against the physical pain, the frantic calls for help, the brave determination to die alone; at last the almost animal struggle for just one last breath, and the final chooking cry—all made a whole that quickened the breath of the onlooker, and spoke volumes for the skill of the heroine of the scene.

Mr. Coghlan's natural and easy-going indifferentism goes along smoothly enough with the role of the cold-booded "Jack Fastinbras," The rest of the conlooker

Women Delegates Excluded from the Methodist Conference. NEW YORK, May 7.—[By the Associated Press.] Bishop Ninde presided at today's session of the Methodist Episcopal Conference. The debate on the admission of women as delegates was continued. Forty-one delegates at once claimed the floor. Rev. H. H. Moore of the Eric Conference was recognized. He spoke in favor of admitting women.

Rev. J. T. Edwards, editor of the Northwestern Advocate, opposed their admission at the present time, and favored the submission of the question to a vote of church.

Judge Taylor, from the St. Louis Conference, urged the question on constitutional grounds. There were important matters to be voted on, he said, and if women were admitted, and it should subsequently be deof State: "It is not true that there has been any refusal by the Sultan of Morocco to arbitrate. Dr. P. Bayless, of the Cincinnati Conference, argued that if the General Conference had the power to construe the constitution in regard te admission of local preachers, it had the right to construe the law in regard to the eligibility of women.

The debate closed about 1 o'clock, and a vote was taken on the adoption of Moore's substitute for the report of the committee. It proposed that the women elected as lay delegates to the present conference be seated, and the question of their eligibility to future general conferences he determined by a vote of the churches and the annual conferences.

The substitute was lost.

SAN FRANCISCO, May 6.—[Special.] A divorce case of scarcely less note than the celebrated Sharon case was decided in the Superior Court today by Judge Wilson. George E. White is a wealthy cattle-rancher of Round Valley, Mendocino county, whose of Round Valley, Mendocino county, whose wealth is commonly supposed to reach \$1,000,000. He is king in his own locality, and has been in the habit of having everything his own way. He had had two wives before he married his cousin, Frankie White, and he subsequently left her to go off with her sister to Santa Cruz. They registered at San Francisco hotels as man registered at San Francisco hotels as man registered at San Francisco noteis as main and wife, and he bought Mrs. Simpson's house in Berkeley, which she occupied ostensibly as his housekeeper. On December 15, 1885, White sued in the Mendocino Superior Court for a divorce, alleging deseption and adultery as cause of action. He averred that Mrs. White had been untrue to him with her cousin and his nephew, John Rohrbough, and that she subsequently left him and came to this city, where she yet resides. She filed a cre accusing him of adultery, cruelty, failure to provide and desertion, and asked for a divorce and division of the community

property.

The case was begun in Mendocino county. but was subsequently changed to San Francisco. His treatment of her as set forth in the testimony was brutal in the extreme and in giving his decision, the Judge says

"I am of the opinion that under all the circumstances of this case as detailed and discosed by the evidence, the defendant was both legally and morally justified in leaving plaintiff's residence at the time she did, and not returning thereto. I am of the opinion that the allegations of plain-tiff's complaint, as to defendant's adultery and desertion, are neither of them sustained by the evidence. The allegations of the cross-complaint as to plaintiff's adultery. descrition and failure to provide, are fully sustained by the evidence."

There were many side issues to the case,

among others the killing of John D. Wathen at Round Valley, by Clarence White, a brother of Mrs. White. Wathen, commonly known as "Wylackie John," was White's right-hand bower, and while the trial was going on in this city, he corraled all of White's witnesses, his own employés mostly, and dictated what they should swear to. He was pursuing the same policy while Mrs. White's attorneys were taking depositions in Round Valley, when Clarence White shot him in self-defense.

Another issue was the granting to Mrs. White of some \$5000 alimony and counsel fees while the case was going on. White appealed this case to the Supreme Court, which sustained Judge Wilson in granting

Activity Among Sherman's Friends.

The friends of Senator Sherman are more than confident over the situation and prospects. The Ohio Senator had quietly but effectively marshaled a degree of strength which has not only assumed formidable dimensions, but is expected will draw over the floating sumed formidable dimensions, but is expected will draw over the floating and wavering vote. It is claimed that a great many of the complimentaries will drop to Sherman when the convention gets down to the principal candidates. The Sherman men now feel quite easy, as they have enough organized voting power, with the votes of other candidates, to prevent the Blaine men from running their choice in other candidates to prevent the Biaine men, from running their choice in over his letter of withdrawal and every other consideration before the convention has settled fairly down to its work. The Blaine men feel that their only chance will be to storm the convention at the outset. A few ballots would be fatal. The Sherman men are now working for a complimentary vote for working for a complimentary vote for the several eastern candidates, so as to prevent a Blaine concentration there, as the Allison and Harrison vote would as the Alison and Harrison vote would be likely to go for Blaine on geographical grounds, as it would throw the Vice-Presidency West. The eastern votes for Sherman would throw the Vice-Presidency East. The friends of Senator Sherman are constantly conferring and are covering all the ground.

THE WONDERFUL GROWTH OF

Enormous Earnings of Our Local manency of Our Progress - Los Angeles and Utah.

Los Angeles Corr. New York Times.]
I have thought that it might preve of I have thought that it might preve of interest to your many readers if I should give you a few items of news from this locality. The wonderful development of Southern California within the past few years has challenged the public attention in many directions; but in no direction has this been more notable than in respect to railroads. It seems almost incredible, but it is nevertheless a fact, that neither the Southern Pacific Company nor the Atchison, Topeka and Santa Fé has been able for months past to supply the demands made upon them supply the demands made upon them for transportation of either freight or passengers. And so profitable has been their business in this locality that it has naturally suggested competition. The necessity of additional railroad facilities and the profitableness of the railroads in this vicinity have induced a number of our wealthy citizens to organize a new railroad company for the purpose of still further developing our resources, and at the same time giving opportunity for profit to the promoters.

Near the close of last year alroad company was incorporated under the name of the San Pedro, Los

Angeles and Utah Railway Company, with a charter authorizing the con-struction of a line or road from San Pedro Bay northwardly through Los Angeles and Pasadena to Keeler, the southern terminus of the Carson and Colorado Railroad Company on Owen's Lake. The company has a capital stock of \$10,000,000, and intends to stock of \$10,000,000, and intends to build during the coming season from San Pedro Bay to Pasadena. It has also purchased the seven miles of road already constructed from Pasadena northward to Altadena, which becomes a part of the main line of the company. The projectors of the road have also purchased 2800 acres of land at San Pedro Bay, buying a water front of one Pedro Bay, having a water front of one and one-half miles on the inner bay and about the same on the ocean front outside, embracing one of the finest beaches and someof the most eligible lands to be found on the Pacific Coast.

lands to be found on the Pacific Coast.

It is intended that this road shall be, for at least 50 miles north of San Pedro Bay, an independent terminal road for the use of companies whose lines will approach this city from the north. It is currently reported that the Union Pacific, Chicago, Rock Island and Pacific, Chicago, Burlington and Quincy, Carson and Colorado, and Denver and Rio Grande Railroad Companies are projecting extensions of their lines to this city and the coast. The San Pedro, Los Angeles and Utah The San Pedro, Los Angeles and Utah road would give each or all of them access to the coast from their points of intersection of its line free and independent of the control or influence of either the Southern Pacific or Atchi-son. Topeka and Santa Fé Company. That some idea may be formed of the

present enormous commerce at San Pedro Bay, it will be in order to say that the harbor reports show that there were received by vessels and forwarded northward by rail during the year 1887 the following quantities:

Lumber.....171,180,236 feet...... Coal.........131,022 tons...... Gen'i mdse.....44,436 tons......

Total 43,912 cars
During the months of January and February, 1888, the Southern Pacific moved 60,000,000 feet of lumber out of San Pedro Bay, and the indications are that the enormous business of all kinds for last year at that point will be largely increased during the current

year.
One of the remarkable facts in the business of the railroads in this vicinity business of the railroads in this vicinity is this: The Atchison, Topeka and Santa Fé Company is now and has been for several months past, running seven passenger trains each way per day between this city and Pasadena, each train consisting of five coaches and a baggage-car; and yet in almost every train not only are the seats full, but the standing room is all occupied, and it often happens that people are compelled to wait for the next train. The gross earnings of the Southern Pacific Company on its branch line be-Pacific Company on its branch line be-tween this city and Sau Pedro Bay— about 27 miles—as reported for 1887, were \$1.085.000, or at the rate of a little over \$40,000 per mile, a greater rate per mile than is earned by either the Boston and Albany, Old Colony, Bos-ton and Maine, Boston and Providence, Ton and Maine, Boston and Providence, Providence and Worcester, New York, New Haven and Hartford, New York Central or Pennsylvania road. The gross earnings of the Atchison, Topeka and Santa Fé Company on that portion of its line between Pasadena and Los Angeles, a distance of about nine miles, as reported for 1887, is a little over \$700,000, a still higher rate per mile than that reached by the Southern Pacific.

Pacific.

The manager of the San Pedro, Los Angeles and Utah Railway Company claim that the location of their line is more favorable for both freight and passengers than the lines of the Southern Paeific and Atchison, Topeka and Santa Fé companies between the same points, and that their company will, immediately upon the completion of their road between Pasadena and San Pedro Bay, take more than one-half of the business now being done by the other two companies. This fact seems to be conceded by shrewd business men here, who are best able to judge. If the new company shall get only one-half of this enormous business it will have a net income which will surprise have a net income which will surprise any one who is not personally cognizant of the business situation here. It is worthy of note that the water-front at San Pedro Bay is now being rated at higher prices than almost any other property in this locality. The managers of this new scheme were wise enough to anticipate the wants of commerce when they purchased the 2800 acres of land above referred to, which embraces Rattlesnake Island and a large body of adjacent lands. As much as \$500 per front foot of dock on the bay is reported as having been offered bay is reported as having been offered to the Southern Pacific Company, while all the beach property on the ocean front at all the watering places in this all the beach property on the ocean front at all the watering places in this vicinity is rated at a correspondingly high price. The value of property on San Pedro Bay is likely to show still further increase in the near future. It is currently reported here, and on apparently good authority, that certain capitalists in California, New York and Boston are now maturing plans for the establishment of a line of steamers to run between San Pedro Bay and China. No doubt some of these people are interested in the Union Pacific, Chicago, Burlington and Quincy, or Rock Island Company, no one of which receives freights from China until after it has paid tribute to the Central Pacific or Southern Pacific road.

One of the peculiarities of the growth of this locality consists in the fact that so large a portion of the people who come here come to stay. I doubt if there is a locality within the United

BIG FIGURES.

States the growth of which is at present so rapid and at the same time so permanent as that of Los Angeles county. And the character of the people who come is of as much importance as the fact of their coming. This is reflected in the bank deposits. There was on deposit in the banks of Los Angeles county on January 1, 1888, over\$18,000,000. Of this the banks of the city of Los Angeles held over \$13,000. over\$18,000,000. Of this the banks of the city of Los Angeles held over \$13,000,000 and those of Pasadena \$3,000,000, the remainder being held by banks in smaller places. The assessed value of property in/Los Angeles county for 1881 was \$18,503,000. For 1887 it was \$92,279,000. The population of Los Angeles in 1880 was about 11,000. At this writing it is about 70,000. The population of Pasadena in 1880 was about 500. It is now over 10,000.

I have thought that these facts, als though hurriedly given, might be of interest to people in all parts of the United States, and have therefore triven them to the public in this communication.

THAT BULLPEN.

How the Sport Will Be Conducted a

How the Sport Will Be Conducted a San Buenaventura.

[San Buenaventura Free Press.]

Go tell it in Gath, or the Democratic office, which will do as well. We have actually visited and inspected the bullpen. There was no bull there, nor no Mexican, nor no fight. All was quiet, save for the grating of the saw and the whacking of the hammer, as Sunday morning in a Puritan colony with all the bee-hives closed. We saw the place where the mirth-provoking bull and the hilarious Frenchman are to play hide-and-seek to the delight of tiers of people—provided they should be in tears—and the infinite satisfaction of the performer who comes out winner. The proprietor assured us that it was not to be a cruel exhibition; that the bull's horns would be cut off so he could not gore with them, and that the man should not be allowed to hurt or torture the bull. Places of refuge are placed at convenient distances around the sides of the grens, where the men ture the bull. Places of refuge are placed at convenient distances around the sides of the arena, where the men can escape if too hardly pressed. In this particular they give the man the advantage. If the management would only give the bull a place to run into where the man could not get at him, the play would be more nearly equal. At least that is the way it looks to an unpracticed eye. Brother McGonigle or Sutton knows more about that in one minute than the whole carpetbag force of the Free Press could learn in a month. With all the advantages given the man, and precautions against harm from the bull, it looks as if the danger would be less in looks as if the danger would be less in fighting the bull than in riding a bucking broncho. Be that as it may, the proprietor anticipates a profitable season. He has used nearly 12,000 feet of lumber in building it, and pays \$250 per annum rent for the ground upon which it is built.

One thousand installations, aggregating 1,000,000 incandoscent lamps, are now in successful operation in educational institutions, asylums, hepitals, hotels, clubrooms, theaters, banks, stores, residences, printing-houses, reflucries, mills, factories, packing-houses, depots, machine shope, steamships, mines and street lighting throughout the United States. In this, the original, uniform and today the only integral system of electrical distribution for incandescent lighting, perfect subdivision of the electrical current, represented by lamps of any power, compels complete diffusion of a soft, pure, white light that meets the most exacting requirements. It has never caused, the loss of property or life.

It offers the highest efficiency per horse power of mechanical energy.

It secures the graciest economy.

To users of steam plants possessing an available surplus of power, and to all suilders, estimates of cost of electric plants, steam plants, etc., will be observably furnished upon application to except the property of the plants, etc., will be observably furnished upon application to

NO CHARTER.

A Very Light Vote Polled and the Charter Killed. The charter election passed off very

quietly yesterday, a very light vote being olled, and resulted in the defeat of the ew charter by a majority of 140. But little interest was manifested, and only a few advocates of the measure put themselves to any trouble to secure its adoption. A number of professional "workers," who were opposed to it, however, turned out, and suceded in carrying their point. Only one ward in the city polled a majority for the charter, the Third, which was carried by 79 votes. The following is the vote in detail

First Ward-To tal vote, 208; for the narter, 59; against it, 149; majority against, 90.

Chinese Gambiers.

The 22 Chinamen who were run in on Sunday afternoon by Deputy Constables Arguello, Kline and Jenkins, were brought up in Justice Taney's court yesterday, and up in Justice Taney's court yesterday, and with due humility each and every one of the pig-tailed gamblers pleaded guilty to indulging in the prohibited delights of a dieg game. With strict impartiality they were asked to part with \$7 per man by Justice Taney, and after some little reluctant parleying the money was forthcoming and the crowd of jabbering heathens left the court.

ROUGH ON AUSTRALIA.

Wandering Merchant Tells What He Knows About That Country. An old Angeleño, who has been wander-ing for the past seven years in Australia, and has but recently returned to this city, speaks in somewhat disparaging terms of the prosperity of the Australian colonies. The old country has been unloading its pauper population in Victoria and New South Wales to such an extent that the labor market has been glutted, and poverty, with all its attending misery, is as common as in London or Liverpool. In Sydney alone, during last fall, the Premier of New South Waies, Sir Harry Parkes, was obliged to take some steps for the relief of between 4000 and 5000 destitute people. As the emigrants continue to arrive in shoals by each steamer, things promise to become worse instead of better. One good feature, however, is the action taken by the various colonial governments, in taking steps to make the poll-tax on incoming Chinamen prohibitive.

The exhibition which will be opened in Melbourne this year has not created the wide-spread interest that was anticipated, but colonials generally are hoping that it may act as a stimulus to trade and arouse the mercantile community from the labor market has been glutted, and poverty,

may act as a stimulus to trade and arouse the mercantile community from the lethargy in which it seems to be sunk. The gentleman talked in doleful strains of the prospects ahead of any one wishing to leave Southern California for the antipodes, and asserted his belief that any such must be suffering under a mild form of lunacy. For himself, he has come back to stay, and has only one regret, that he ever left the City of the Angels.
